Education

Year	Degree/Certificate	Institute/Board, City	Score
2024(Expected)	B. Tech in Computer Engineering	Delhi Technological University (DTU)	9.21 CGPA
2020	CBSE, Class XII	DAV Public School Sreshtha Vihar	96%
2018	CBSE, Class X	DAV Public School Sreshtha Vihar	91%

Work Experience and Internships

Vicara: SDE Intern

(June 2022 - August 2022)

- Responsible for developing analytics dashboard using Dash framework as well as creating and integrating APIs using fastAPI in python for various Machine Learning and IoT-based devices.

Streato: Technical Project Management Intern

(March 2022 - April 2022)

- Lead the UI team and developed admin panel,
- Revamped the existing UI keeping the original essence of the existing elements.
- Created new features based on end-user surveys and research.

Web Design Intern under University Student Internship Program (USIP)

(October 2021 - March 2022)

- Worked under the office of Dean Outreach and Extension Activities. Responsible for the design and development of the website of the Desh ke Mentor (<https://deshkementor.com/>) Program under the Government of Delhi.
- The site serves 13000 mentees and 3000 mentors. Worked on the UI of the app for the same. **Tech-Stack:** ReactJS, BootstrapUI, NodeJS, ExpressJS, MongoDB

Key Project(s)

Let's Code:

- Full-stack(MERN) web app to promote peer-coding.
- The users can collaborate in real-time and code together.
- Multiple themes, programming languages, and video call/chat facilities are available.
- CheeriosJS-based web scraping from Codeforces and AtCoder.

LiquorSwap:

- LiquorSwap is a DEX(Decentralised Exchange) that enables the users to exchange tokens without KYC and identification using minimal gas fees, unlike existing centralized exchanges that require utility tokens to perform transactions.
- Designed the front end and integrated the Web3 APIs created using MoralisJS.

AQIR:

- AQIR is an example of an environmental DeFi app with the goal of channeling the DeFi funding towards environmental goods.
- We divide the country into small hexagons using H3 mappings and stake unique tokens valued upon the improvement/degradation in the pollution index.

Position(s) of Responsibility

- Secretary at Technical Council DTU
- Event Management and Membership Coordinator at IEEE DTU

Academic Achievement(s)

- Specialist(max 1418)** at [Codeforces](https://www.codeforces.com/).
- 1st position** at Vihaan 5.0(2022)
- 1st position** at Innovathon DTU(2021)
- 1st position** at Hackbvest2021
- Best Use of Collaborative Technology Award** HackUMBC(University of Maryland)
- Best Freshers Award** at Vihaan 4.0(2021)
- Winner of PATR track** at DevJams21
- Student Branch rank 1** (global rank 655) at IEEEExtreme(worldwide competitive programming competition by IEEE).

Technical Skill(s)

Programming Languages: C, C++, Python, Javascript, Dart, Typescript, Solidity

Technologies and Frameworks: NodeJS, ReactJS, React Native, MongoDB, SQL, Flutter, GraphQL, Web3, Figma

Technical Skills: Data Structures, Algorithm Design and Analysis, Object-Oriented Programming, Database Management System, Operating Systems
